TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

GOLDFIELD MEN GO TO RAWHIDE

properties in the camp. The Big Four lease, which adjoins the Murray, is also showing remarkable richness with development.

"The claims which were sold by Dr. Grissim and Cleve Baker and myself to Mr. Enzensperger are in that same country, on the south of the Rawhide Consolidated. The consideration was \$35,000 cash and 75,000 shares of stock. This ground, being in the vicinity of the Murray lease, ought to show up rich with development, and I understand that the new owners are going to work on it right away. We held on to the adjoining five claims, and on this several leases have been let, and the company is also going to begin operations in the immediate future."

Mr. Allen leaves this morning for Rawhide, and from the latter camp will go to San Francisco in connection with some business regarding the Royal Tiger Mining Company. He says that the latter will have a hoist on the property within ten days. This will come pretty near being the first hoist in the camp.

UNION LABOR MEN INDICTED

NEW ORLEANS, Feb. 17.—Seventy-two men, representatives of all the classes of labor employed on the New Orleans river front, and which compose a union known as the Dock and Cotton Council, were indicted today by the United States Grand Jury on the charge of conspiring to restrain trade in violation of the Sherman anti-trust law. The indictments followed the refusal of the Dock and Cotton Council to permit the Coal Wheelers' Union to coal the steamer Hahil, which cleared from here several days ago for Puerto Cortez. The agent for the Hahil signed an agreement with the union, had his vessel coaled and then placed the matter in the hands of the United States District Attorney.

RAILROAD ENDS AGREEMENT.

DENVER, Feb. 17.—Announcement was made here today that the agreement of the Denver and Rio Grande railway with its mechanics, which provides for strictly union shops, minimum hours of labor per week and wages, will be abrogated March 14th. The railway company served notice yesterday on the employees that the contract would terminate on that day.

SEEK LIGHT ON BANKERS' LIVES

NEW YORK, Feb. 17.—Within a few weeks, in the wake of recent financial developments, the detectives of New York city have found a new branch of their business developing in learning the reputation, and as far as possible the character of bank officers and directors.

It is nothing new for a bank to want to know something about the men with whom it is doing business, but now the depositors are getting more particular and are becoming deeply interested in the men who handle their money and want to know their associates, habits of life and general methods of business.

"It was about a month ago when my attention was called to this," said a member of a lower Broadway detective agency. "Some large depositors of one of the banks in this section came to me with a list of its officers and asked me to learn all I could of their habits, methods and associates, both business and social."

It has been learned that this same sort of thing is going on in many directions.
